

Deborah Cox, Who Do You Love?

Last night I slept alone,
I stayed at home,
For the first time since you've been gone baby,
No friends to understand,
To lend a helping hand,
To ease the greatest pain I've ever known,
How you walked away so easily,
Still remains a mystery to me,
Don't you remember that you promised me yes you promised me
That you'd never leave boy,
But you went away babe,
And it's such a shame,
How could you turn your back on me ohhhh,

Chorus:

If you really don't want me (if you don't want me)
If you really don't need me (If you don't need me)
If you really don't love me, then who do you love boy?
Repeat chorus

I gave, gave everything,
A man could ever need,
I was there whenever you would call baby,
But somehow your feeling strange,
And you don't act the same,
I guess you are not the man that I once knew at all,
How you walked away so easily ,
Still remains a mystery to me,
Don't you remember that you promised me yes you promised me
That you'd never leave boy,
Now the love has gone babe,
Tell me what went wrong,
How could you leave me hanging on, ooh baby,

If you really don't want me (if you don't want me)
If you really don't need me (If you don't need me)
If you really don't love me tell me then who do you love boy?
Repeat X4

I was once blind,
But baby now I see,
That I'm not the one,
Who can feel your every need,
I have painted a picture,
So clear it's reality,
Now I know, yes I know,
That you're not the one for me ooh baby

If you really don't want me (if you don't want me)
If you really don't need me (If you don't need me)
If you really don't love me ,tell me who do you love boy?
Repeat

How could you walk away from me,
Baby you promised that you'd never leave,
slept alone since you've been gone,
Greatest pain I've ever known ooh,

If you really don't want me (if you don't want me)
If you really don't need me (If you don't need me)
If you really don't love me then who do you love boy
Repeat until fade
