

Deborah Gibson, What Part Of No

No, no baby, no

Open your eyes, think I didn't see
You kissin' on her, yhen you kissin on me
Come on guys what do you say
Hey, hey, you know I wasn't born yesterday
You want me to just give in to you
Not unless you're gonna follow through

Chorus:

What part of no don't you understand
It's not my job to make you a man
Gotta take my heart when you take my hand
What part of no don't you understand

Gotta want me in the light of day
Yeah, it's cool to look, but hear the words I say
Plenty of girls would crawl into your bed
Are you the guy willin' to try to get into my head
Sew up all of your untied ends
'Til then I'm here, but no more than friends

Chorus

Bridge:

You can make a move if you want to
But it will be all in vain
Want to get my respect
It will be hard to
If you do it again
If you do it again

Oh baby no
Oooh no
What part of no didn't you understand

No, no, no, no, no, no, no
Means no, no, no, no, no, no, no
Means no, no, no, no, no, no, no
What part of no don't you understand
Oh baby no
Break it down
What part of no don't you understand, No

Chorus 2X
