

# Deceased, Fading Survival

In your mind defeat is fresh out of time, there's no more left  
A morbid rush the growing fear a sudden flash and the end is here  
A time to worry and a time to die unstable Earth has goodbye  
Goodbye.....

Chaotic seizures fill our brains, convulsions steal our souls  
Morbid battle of extinction, the hatred it unfolds  
Universe of betrayal hidden by decay  
Violent ending now in site eroding us away.....

Distant is the end at last the final call  
Explicit horror is unleashed to evacuate our souls  
A growing menace fading now survival seems unreal  
Death is moving closing in waiting for the kill.....

Yes, Armageddon is intact and it has come for thee  
Forever buried in a trance to never be set free.....

Distant is the end at last the final call  
Explicit horror is unleashed to evacuate our souls  
A growing menace fading now survival seems unreal  
Unplugging cords stopping life death is soon revealed  
Fading survival!!
