

Decibully, On The Way To Your Hotel

on the way to your hotel
i passed by then turned around
i was making steps one by one
on the way to your hotel
on the way to your hotel
i thought hard of what to say
while your directions were well laid out
i tried finding my own way
on the way to your hotel
i burned matched that i found
individually down
until the last one that i tried to save
to start a fire in your hotel
