

Deciding Tonight, The Downside Of Weightlessness

I must admit when she comes
You'll be enticed by the surreal
The things she'll show you in that world
Will be the things that you can't erase
If you tried

Believe me I tried

Take my word
You're better off
Never knowing the upside of weightlessness

I must admit when she leaves
You'd follow her straight into hell
The things she'll show you in that world
Will be the things that you can't erase
If you tried

Believe me I tried

Take my word
You're better off
Never knowing the upside of weightlessness

You'll spend your life in a world where the sun rides the horizon
But never falls below
In a place where you're eyes grow heavy
But she won't let them close
