

Decoded Feedback, Atlantis

I feel safe
when you hold me

I feel safe
when you look over me

I feel safe
when you stand next to me
I've been waiting for you
I've been waiting for us
Together again
Like this land, and the oceans

I feel safe
when we are hiding

I feel safe
when everything
is so far away

I feel safe
deep inside me

I feel safe
when it's just you, and me
I've been waiting for you
I've been waiting for us
Together again
Like this land, and the oceans
