

# Decoded Feedback, Combustion

Fuck me  
Push me  
Let me know how you feel  
Grab me  
Lust for me  
Let me feel the fire  
Burning my skin

Under my skin  
Over your skin

Combustion / energy  
A black hole chaos theory  
Under this burning flag  
You and me  
Will raise the flame

Kiss me  
Feed me  
All that heat that you feel  
Love me  
Hate me  
Give something that is real  
Hit me  
Hold to me  
Give me the pain that you feel  
Grab me  
Lust for me  
Let me feel the fire  
Burning my skin
