

# Decoded Feedback, That's All You Want

Hey little girl  
Lost in your little world  
What are you dreaming  
Express your feeling  
Tell me who you are  
Tell me what you want  
Why are you shaking  
What's in your mind

Hey little girl  
Hiding in your little world  
I want to know you  
I want to know who you are  
I will set you free  
I will give you dreams  
I will make you feel wanted  
If that's what you want

Lay your hands on me  
Let me set you free
