Decoryah, Infinity Awaits

Storm, rise in my hand Storm, form in my mind Storm - rise

As dark as I see my world, I see my life and my soul- As they'll clash I shall sink into the waves of love and hate The element of clouded lives the waves - they must be the answer -And together we walk into the waves... Let it drape us

They give me everything I need. pleasent ecstasies and... I just wait their blow Ah, they blow...
