

Decyfer Down, Burn Back The Sun

I take a walk in the bitter cold,
I try to see your face,
The way it used to be,
The sky was never grey,
There was a time when I let you in,
You turned my night to day,
But I turned you away

(Chorus:)
Burn back the sun,
Bring back the fire wands,
Blazing inside this heart-o-cage
Burn back the sun,
You were the only one
To love me with passion's quiet rage

I have tasted the apathy,
It's bitter on my lips,
I am not who I used to be,
Betrayal with a kiss,
Open mouth for the prodigal,
You kept the flame alive,
You keep this flame alive

(Chorus)

Rage, quiet rage

(Chorus 2x)

Burn Back The Sun...
