

Dee D. Jackson, Which Way Is Up

Lost in love with no will of my own
Stuck to you like a dog to a bone
Oh which way is up
And which way is down
Hanging on to the line you through out
Faking love and
That's without a doubt
Oh which way is up
And which way is down
I can't tale it anymore
I'm not so sure

Which way is up
And which way is down
You take my love
And then you twist it round
Which way is in
And which way is out
I'm in love and
That's without a doubt

Have no choice but to follow my heart
Realize I play the passive part
Oh which way is up
And which way is down
Can't hide love
But I know that I should
If I did It would be for my own good
Oh which way is up
And which way is down
I can't take it anymore
I'm not so sure

Which way is up
And which way is down
You take my love
And then you twist it round
Which way is in
And which way is out
I'm in love and
That's without a doubt

Which way is up
And which way is down
You take my love
And then you twist it round
Which way is in
And which way is out
I'm in love and
That's without a doubt

Have no choice but to follow my heart
Realize I play the passive part
Oh which way is up
And which way is down
Can't hide love
But I know that I should
If I did It would be for my own good
Oh which way is up
And which way is down
I can't take it anymore
I'm not so sure

Which way is up

And which way is down
You take my love
And then you twist it round
Which way is in
And which way is out
I'm in love and
That's without a doubt
