

Deee-Lite, I Won't Give Up

I won't give up
I'll never stop our love
I'll never stop
I won't give up on love

If we could do it again
We'd do just the same baby
Because when you give your all
No matter how small
One smile is all I need to satisfy me

Let's do it again
Let's do it again baby
And here you come walking down the street
One smile is all I need
I hear the harp and angel sing
Your love is like heaven
You gratify me
You satisfy me
Starting right now

Let's do it again
Let's do it again baby
Let's do it again
We'll tell all your friends baby
Do it do it
Just put your mind to it
There's nothing to it
