

# Deep Purple, A Gypsy's Kiss

John San what you can  
La la Janette dance in sand  
What's the mystery my son  
Gypsy Dan Caravan  
Won Tun Wan with your Chinese fan  
It's part of history my son

Murder and rape with your power  
The 10th revolution in far away days  
It's come to this  
A gypsy's kiss  
All your power's gonna fade in the haze

Ya who' Jumme gae bile ya heed  
The Senorita said  
I'll drag yer lungs out through yer nose  
Space truckers free and high  
Teamsters get ya by and by  
That should keep you on your toes

They got a gun at your head  
But you ain't necessarily playing their  
game  
They can't resist  
A Gypsy's Kiss  
All that's needed to drive them insane

John Wayne The Alamo  
Crazy Horse Geronimo  
I'll smoke a piece with you  
Mind Body Heart and Soul  
We got Rock and Roll  
And there's nothing they can do

Hear the small voice of truth  
Above the shouting despair of the crowd  
What do you wish  
A Gypsy's Kiss  
Gets you strong for crying out loud
