

# Deep Purple, Love Help Me

Vibrant flashes in my mind  
Remind me of a foregone time  
Blackened faces, broken romance  
Blackened faces

My broken heart has bled  
With memories of a love that's dead  
Sometimes happy then sad  
I need love, love help me

[Passing by the grounds of time]  
Memories that are only mine  
Looking for love, a brand new love  
Looking for love

Dreams that are hard to see  
Finding a new love for me  
Someday she must come along  
I need love, love help me

I need love to come home  
Somewhere there must be one

Hoping someday for good news  
Waiting for that girl to choose  
Only hoping, all I can do  
Only hoping

One day she must come along  
A girl as pretty as a song  
A woman just there for me  
I need love, love help me

Vibrant flashes in my mind  
Remind me of a foregone time  
Blackened faces, broken romance  
Blackened faces

My broken heart has bled  
With memories of a love that's dead  
Sometimes happy then sad  
I need love, love help me  
I need love, love help me  
I need love, love help me
