

Deep Purple, Talk About Love

Talking real world, all that pain
Try to fix it still comes out the same
Get down to Rosie's
Won't you pull that plug
Last week
Someone made a mess of that rug

Talking big house way up town
One day one day
I'll put the money down
All that baby talk it's for the birds
Let's make some honey
Honey in so many words

Oh no
Don't want a serious conversation
I just want to get you serious
Serious
I want to talk about love

You talk about the weather
Rain or snow
Talking cold wind
The way it's going to blow
Talking good times night and day
Talk talk a stronger man
Could lose his way

Aphrodite now there's a girl
Good good loving
She spreads around the world
Forget your dancing all that boogaloo
Drag that purse over here
I got to talk to you

Oh no
Don't want a serious conversation
I just want to get you serious
Serious
I want to talk about love
