

# Deep Purple, Things I Never Said

Don't get me started  
Let's get it right  
No use talking about it  
Deep into the night  
Don't ask about the secrets I could tell  
I'm going to keep them to myself

No bad decisions  
No good advice  
No time to think about it  
Even once or twice  
No second chances looking down the road  
When that's the only way  
Only way to go

Ah it makes me wonder  
What's going on inside my head  
Well could it be the pressure that I'm under  
Makes me forget  
The things I never said

I can't remember  
I can't forget  
Take it from me  
There's not a moment of regret  
And since the day I learned to tie my shoes  
I've found it hard to spread the news

Ah it makes me wonder  
What's going on inside my head  
Well could it be the pressure that I'm under  
Makes me forget  
The things I never said

It's hard to swallow  
It's hard to take  
When I think about it now  
My knees begin to shake  
It never came to me to mention at the time  
To tell the truth it never crossed my mind
