

# Deep Purple, Too Much Is Not Enough

You're so extreme, you're super heavy  
You're one step over the line  
Not what you seem, don't try and tell me  
I know what's really on your mind

Once you get started you're out of control  
Don't play that sweet and innocent with me girl  
I know you know you want to rock and roll  
But I got just what you need

I, I want to feel your love  
Too much is not enough  
I, I want to feel your touch  
Too much is not enough

You've got it bad, you're hopelessly addicted  
You're always searching for the cure  
Love is the crime, you stand convicted  
You keep on coming back for more  
Come on admit it, you're over the top

That song and dance won't work with me girl  
You just can't quit it, don't know when to stop  
But I got the remedy

I, I want to feel your love  
Too much is not enough  
I, I want to feel your touch  
Too much is not enough

Baby stop wasting time  
And let me know that you're mine  
I need to feel your embrace  
How much can I take
