

# Deep spirit, No Cover Song

Is it right or is it wrong  
Don't wanna do a cover song  
Call me silly and call me fool  
Only because I break the damn rule  
Don't fit business but I don't care  
Music is more and more we share  
No Don't give up, just follow my way  
Dance (What I've got to say?)  
This is not another cover song  
Done for the money when I tears off have gone  
One for the music and two for dance  
This was my first and last romance  
Have a vision a new idea  
You are the one that's why I'm here  
Have a message from the way  
No more sun is when there's something to say  
Don't fit business but I don't care  
Music is more and more we share  
Don't give up, just follow my way  
Dance (What I've got to say?)  
This is not another cover song  
Done for the money when I tears off have gone  
One for the music and two for dance  
This was my first and last romance
