

# Deepest Blue, Spread A Little Love

I know that you're going to cry  
I sorry I told you lies  
The rumours you heard today  
So sorry you learnt that way

Just give you poppy fields of dreams to  
Rescue you from me  
I hope someday you come to understand

Please don't try to wave goodbye  
Don't throw us away  
I need you to stay  
Please don't try to say goodbye  
Don't throw us away  
I need you to stay

Lonely as I can be  
Alone for the world to see  
A room full of emptiness  
Out there we're all embraced

You try  
Try to be me  
Look at all the things  
I see

So take away  
A life today  
And be the one

Touch  
Touch all you can  
Try to be a better man  
Hold away  
Another day

I'll be, I'll be, I'll be, I'll be and I

I do  
Let me hold you  
Take it all away  
Another hand won't stay

Oh just take my hand  
And don't be afraid  
Spread a little love  
Spread a little love  
Spread a little love  
Spread a little love
