

Deepside Deejays, Hold You

I never told you
I'd give my life I could hold you
I'm losing sound when I should love you
You are my sun where there's no light
Make it rise, alright
Told you
I'd give my life I could hold you
I'm losing sound when I should love you
You are my sun where there's no light
Bring your sunrise next to mine

Impossible to reach I can run no more
I find it not so hard to let you go
I got reasons to live 'cause I'm natural high
From sunrise delight
I got reasons to live all the time
Everyday smiling up to the sky
No more rain, no more pain in my life
Never down 'cause I am a natural high

A natural high... x2
Live it up...

Next to mine
Bring your sunrise next to mine
Yeah right
Next to mine
'Cause I'm natural, natural high
I never told you
I'd give my life I could hold you
I'm losing sound when I should love you
You are my sun where there's no light
Make it rise, alright
Told you
I'd give my life I could hold you
I'm losing sound when I should love you
You are my sun where there's no light
Bring your sunrise next to mine

Bring your sunrise next to mine... x2

I got reasons to live all the time
Everyday smiling up to the sky
No more rain, no more pain in my life
Never down 'cause I am a natural high
