

Def Leppard, Dangerous

We make up to break up
Then we spin it round again
We dance on the ashes
Of a love that never ends
The heart's never broken
Eyes wide open to the signs
And your bitter taste
Is such a nuclear waste of time

You get me started
You've got me up all night
You take me up and down
And all the way around and round
'Cos you're

Dangerous
I'm addicted to your poison
I never felt a thing
And without hesitation
I will take you and jump right in

We're automatic
We're just static on the line
This love's divided
Just don't hide it let it shine

Dangerous
I'm addicted to your poison
I never felt a thing
And without hesitation
I will wake you
And shake you
And take you
And jump right in
