

Def Leppard, Just Like 73

Hey!

I see your cosmic fingers
Pointing in my way
I see your mystic vision
Through the laser haze

A stardust religion
It's the end of days
A ride to the crazy
On electric phase
We're loved up disciples
In the pleasure-dome
I see a revolution we can call our own

Hey-o!
Wanna rock with you
Just like '72
Hey-o!
Rock with me
Just like '73
Hey!

You move like a reptile
Your alligator skin
A chemical reaction
So let the games begin

My own private cycle
Well it's dream machine
Spit-fire venom
Lick your fingers clean
A universal lust, it's so crazy cool
So turn on to me, it's time to light up the fuel
Say

Hey-o!
Wanna rock with you
Just like '72
Hey-o!
Rock with me
Just like '73
