

# Def Leppard, Torn To Shreds

I don't wanna fall in love  
But it's been taken outta my hands  
And right now I realize  
I don't wanna say goodbye

I miss you more than words can say  
They never turn out right, but here goes anyway

Everyday I miss your touch  
Never thought it would mean so much  
All the words I could've said got me reeling torn to shreds  
Every road I go is nowhere  
But I know you're out there somewhere  
These voices in my head got me feeling torn to shreds

I can't help the way I feel  
That something's got a hold of my heart  
It hurts but I can't let go  
Yeah, I just wanna let you know

I need you more than words can say  
They never turn out right, but here goes anyway

Everyday I miss your touch  
Never thought it would mean so much  
All the words I could've said got me reeling torn to shreds  
Every road I go is nowhere  
But I know you're out there somewhere  
These voices in my head got me feeling torn to shreds

If I ever get myself together  
And it takes whatever it takes  
To get myself back to you

Everyday I miss your touch  
Never thought it would mean so much  
All the words I could've said got me reeling torn to shreds  
Every road I go is nowhere  
But I know you're out there somewhere  
These voices in my head got me feeling torn to shreds
