

Deftones, Can't Even Breathe

I cant breathe and arrive with style
I'm still a sucker feeding it pills with wine
it's tricky how I'll be pushing you back but still you ain't gone
pushing you back but still you ain't gone
pushing you back but still you ain't gone
it makes no sense
I can't breathe and her eyes are dry
but still I will fuck her to keep alive
plus my arms are still broke but watch me h..e..a..l...
it makes no sense!
gone!! she's gone!! gone!! gone!!
Wait up. I'll wait right here. Right here. Wait for me right here.
Wait up. I'll wait right here. Right here. Wait for me right here.
I'll just wait right here cause just one minute ago I was all that
I can't breathe and arrive with my style
but watch me watch me
fuck her just one more time just wait till my arms heal and I'll be
pushing you back but still you ain't gone
pushing you back but still you ain't gone
pushing you back but still you ain't gone
pushing you back but still you ain't gone
pushing you back but still you ain't gone
it's makes no fucking sense!!
