

# Deftones, Lifter

Watch me with your eyes  
Been giving god, A pedophile  
I want to be just like you  
Then I'd be cool, maybe not -- but  
We lift our eyes, big surprise  
Kiss me goodbye -- Whore  
Without you being here I've been giving fear  
Been a bore I wish I could feel like you  
When I f\*\*k like you - being sore - but  
We lift our eyes, Big surprise  
Kiss me goodbye  
And make you burn all that you worked for  
Every knuckle wiped into her  
I know if I get more style  
I will never get what I want  
Inside of her  
This gift of mine, resing, restring, unwind, my eyes are closed  
A part of me gets pissed, a part of me gets sore  
A part of me gets sick, A part of me gets sore  
A part of me gets sick, A part of me gets -- Inside, I burn  
A part of me gets sore, A part of me gets sick  
A part of me gets sore, Sore f\*\*kin Sick  
I wave goodbye to you
