

# Deftones, Teenager

I climbed your arms  
then you pulled away  
a new cavity moved into  
my heart today  
the more I scream  
the more it seems  
that now I'm through  
now I'm through  
with the new you  
I drove you home then  
you moved away  
new cavity moved into  
my heart today  
the more she sings  
the more it seems that  
now I'm through  
now I'm through  
with the new you  
new you
