

Deine Lakaien, Heart Made To Be Mine

standing here eating my heart out waiting
waiting for the nightboat to come
watched about a thousand swallows lately
almost made myself start to run
want to leave this

want to leave this
dark place until morning
want to leave this
dark town far behind
shaking loose this
gloomy bitter feeling
please don't leave me alone
please don't leave me alone
alone with myself tonight

looking for a friend
who needs somebody
don't want to stay on my own
offer all the gifts i have to give
a lonely man
hope is stronger we will come home

want to leave this

want to leave this
dark place until morning
want to leave this
dark town far behind
shaking loose
this gloomy bitter feeling
please don't leave me alone
please don't leave me alone
alone with myself tonight

want to leave this
want to leave this
dark place until morning
want to leave this dark town far behind
got to find a brand new
glittering sunshine
you won't leave me alone
you won't leave me alone
a heart made to be mine

you won't leave me alone
you won't leave me alone
alone with myself tonight
heart made to be mine
