

Deine Lakaien, Traitors

Stumbling, falling, crawling
trying to reach for you
first time I missed you
made a turn and lost my shoe
oh my dear street light
you keep me warm at night
my wonder wonder wonder wonder shining star
wunderbar wonder shining star
Have you ever asked me
where I am coming from
have I ever told you
why I am so alone
oh my compassionate light
talk to me when I am tight
my wonder wonder wonder wonder shining star
wunderbar wonder shining star
Remember our first acquaintance
at your iron post
sat in my car when
all at once my life got lost
I keep a firm hold on you
until the morning blue
my wonder wonder wonder wonder shining star
wunderbar wonder shining star
Glittering snowflakes
under your golden glow
wrap myself up well
in my woolen coat
I am lying at your feet
sweet guardian over my sleep
my wonder wonder wonder wonder shining star
wunderbar wonder shining star
