

# Dej Loaf, No Fear

Even though I live my life on the road  
Doesn't mean I don't have time for you  
Plenty have tried, almost came close  
But none of them compare to you  
So let's live our life, more than one night  
Promise if I could, I'd do it twice

So, what you say? Put 'em on pause, press play  
Hold on, I got more to say

I know my life can get so crazy but as long as you're right here  
None of the gossip, nothing can stop us  
I'm wanna love you with no fears  
We can do this thing together  
Close your eyes and take my hand  
Cause what we have is something special  
Baby let's just take our chance  
Baby let's just take our chance

Last week I was in Paris with friends  
Only thing that was missing was you  
Who would've thought we wouldn't be married by now  
We been true lovers since high school  
Let's live our life, dancin' all night  
You are where you should be, I want this for life

So, what you say? Put 'em on pause, press play

I know my life can get so crazy but as long as you're right here  
None of the gossip, nothing can stop us  
I'm wanna love you with no fears  
We can do this thing together  
Close your eyes and take my hand  
Cause what we have is something special  
Baby let's just take our chance  
Baby let's just take our chance

Don't be shy, don't be scared  
I won't judge, I don't care  
Baby move your feet, baby move your hips  
Been waiting for so long for a feeling like this

I know my life can get so crazy but as long as you're right here  
None of the gossip, nothing can stop us  
I'm wanna love you with no fears  
We can do this thing together  
Close your eyes and take my hand  
Cause what we have is something special  
Baby let's just take our chance  
Baby let's just take our chance
