

# Del Amitri, Here And Now

Hey I'm with you, let me just get you a light  
And if we had thought to listen  
We might have checked if the weather was right  
And I don't mind if you want to drive all day

Hey, it's raining, I should have brought my coat  
Sometimes I could sell my soul  
Just to sit and watch you smoke  
And I don't mind if you want to break my heart

'Cos you can burn paper  
You can turn on a wheel  
But you can't change later  
Here and now just how good we can feel

Hey, stop talking, think I can hear the sea  
And did I tell you the sound of the surf  
Makes strange things happen to me  
And I don't mind if you want to crash the car

'Cos you can turn traitor  
You can turn on your heels  
But you can't change lady  
Here and now just how good we can feel

And hey don't worry, so that black cat's some kind of curse  
'Cos if bad times are coming up ahead  
Just put us in reverse

I don't want to waste time thinking 'bout here and now  
Nothing else matters but what we've got here and now
