

# Del Amitri, Long Way Down

Its been a long way down...  
From what I was then, to what I'm now.  
I was up there, and baby you were proud.  
Yeah its been a long way down.

Yeah its been a slow road back.  
To havin' nothing again, from having it.  
You were mine babe, and we were right on track.  
Yeah its been a slow road back.

Yeah its been a long way down.  
I was high, but you were right about how,  
The higher you get on love, the longer it takes to forget...  
and get out of.

Yeah its been a hard trail home.  
We went somewhere I'd never known,  
From livin it up babe to waking up alone,  
Yeah its been a hard trail home.

Its been a long way down.  
I was high, but you were right about how,  
The longer the dream goes on, the harder the fall will seem  
When it has gone.

Yeah its been a long way down  
We had everything heaven would allow.  
From the desert heights to the life i'm livin' now,  
yeah its been a long way down.
