Del Reeves, I Want Your Heart

Now you give me your kisses and that matches fine But you've been a givin' them all with everybody down the line And I've had enough so I'm a gettin' up

You've got it and I want it and if I have to I'll tear this town apart Yes I'll take it no I ain't a gonna break it I want your heart

Don't send the me the pillow that you dream on I don't want the socks or shoes you wear Don't give me the perfume that you put on Or a golden lock of hair

You've got it and I want it... [guitar] No don't send the me the pillow... You've got it and I want it...
