

Del Reeves, Love Bug

Doo do do do doo a doo do do do doo

Well I was ruling the roost and I had all the chicks to myself
And suddenly it happened a funny little feelin' that I felt
Well I tried to outrun it but it finally caught up with me
But how could I run from somethin' that I can't see

Oh that a little bitty teeny weeny thing called the love bug
Nobody's ever seen it but it's got the whole world shook up
It all started with a little bitty kiss and a hug
It's a little bitty teeny weeny thing called the love bug
(guitar)

Well I always thought that I had me a pretty good style
But I lost that race by a good old country mile
Yeah I was walkin' around with my head held way up high
And it fooled me hit me really took me by surprise

Oh that a little bitty...
It's a little bitty teeny weeny thing called the love bug
