

# Del Tha Funkee Homosapien, Proto Culture

Chorus: Let me tell you about the Proto Culture  
If you don't know the culture, here's the whole structure  
We've had enough of the lackluster-trust us  
We get the kind of games you can't rent at Blockbuster  
KU: Game related, raise it bit by bit  
Yo D, link up the cable we'll go hit for hit  
Phantasma plasma particle beam means I have ya  
on the run-the rendered effects hot like magnas

Del: I play games by Capcom with a power glove strapped on O  
n any platform, I don't spend my dough on Phat Farm  
Video games, I got many to play  
Before my life expires; fulfill my desires

KU: Mastering your hardest boss  
Shattering all stars across  
Ain't hard to cross the finish line  
Floatin' on Daytona  
Wex, Gex or Kloana, we get em all at cost  
RPG, Platform we transform like Macross

Del: Rival schools, Batsu  
Purchase you ought to  
It came with one free CD, it's like I bought two  
I hope they make part II for Dreamcast  
Cause games I've seen in mags, you won't believe they have!

KU: Getting callouses turning over asteroids  
Graviton bombs destroyed  
Getting moms annoyed  
Now I'm hacking Nightmare Creatures  
Their features splattered across the screen  
It gets more clean each year

Del: I remember my homie Ed Coats had the most  
A Colecovision-every week I'd visit  
Playing Donkey Kong Jr., Venture, Rock and Rope  
Games I thought was dope  
While my moms was watching soaps

KU: I'm on the next level  
I got a double barrel shotgun in the Doomworld  
Waiting on the next devil  
Armor's low-check the arsenal  
Rupture the main conductor playin Disruptor

Del: I remember Ninja Gaiden  
Finished finally  
With Ramone wouldn't answer the phone  
This was before getting blown  
I own the first Nintendo Power  
With the maps of Zelda Help me conquer in an hour

Chorus: Let me tell you about the Proto Culture  
If you don't know the culture, here's the whole structure  
We've had enough of the lackluster-trust us  
We get the kind of games you can't rent at Blockbuster  
(2X)

Del: Hey KU you know my SEGA collection is massive  
Got all the past hits and classics  
Herzog Zwei now Panzer Zwei  
Originality that made me a fan today

KU: It's Pandemonium-it's like Toys R Us  
Flippin the next Saturn game brings out the boys in us  
It's poisonous  
Taking out the boys in blue in Grand Theft Auto,  
Snatch a Rolls Royce to use

Del: Yeah, I'll admit Playstation improved  
Come visit Feudal Japan with me and Tenchu  
Bushido Blade 2 with sword play so accurate  
Mega Man Legends but I had to buy a map for it.

KU: I fence Hyo to get a Neo-Geo  
For Samurai 64 in full rendered splendor  
Rival counter and enter my sword in his innards  
My joint was being Leonardo wuppin' on Splinter

Del: I gotta get Xenogears-that's the type of game that relieves my fears  
Get it from overseas to here  
I gotta get Psychic Force  
Authentic arcade that I can endorse  
They got me liking imports

KU: I'll need to be at the next E3,  
What's the next CD I need to see  
Me and D signing checks  
Let's float overseas, mingle with game companies  
Giving tips to Capcom and Sega-you can't front on these

Del: To anyone who knew me better  
Know I chose Saturn first Cause it's 2-D heaven  
Bernie Stolar dropped the ball with the RAM cartridge  
X-men Vs. Streetfighter could've expanded the market

KU: Marvel Vs. Capcom-beyond fathom  
Tell the truth, Playstation ain't ready to have em  
Come on I'll bring the onslaught  
Alpha and Omega  
Khaos Unique brought to you by SEGA.

Chorus: Let me tell you about the Proto culture
