

Del Tha Funkee Homosapien, Workin' It

Yo
Stackin' chips
crackin' whips
back in this
son of a bitch
Punish ya if
ya comin' to get
some of my chips
I summon a bliss
Runnin' the streets
tongue in cheek
pummeling beats
tunneling freaks
Feel me black
I really rap
conceal the trap
I deal the pack
Going gone
growing long
loading arms
throwing bombs
I find the answers
design the chapters
I'm someone who knows
I run this show

Workin' it, exertin' it, you're it now fully immersed in it
Workin' it, merchin' it, make sure you get what you're worth from it
Workin' it, exertin' it, you're it now fully immersed in it
Workin' it, merchin' it, make sure you get what you're worth from it

I state the claim
I break the chains
but show no shame
cuz I know the game
Fools know I'm sane
but got a loaded brain
so I leave the soldiers stained
while I'm a flow some game
I totally maim
throw on my rotary exchange
exposing the chains
I know when to faint
When my motor is hanger
I'm holding those same words
and load 'em on paper
that gets flowed into vapor
Promoting the caper
you soaking the lake up
Hatred
I take it back to basics
I lace my kicks.
I always knew that I would make it stick
I'm adhesive
far from intermediate
I can see the cliff
I make beats or rip
plus freak the shit
out a geeky bitch
Let 'em meet the strip
I'm completely hip
now I want y'all to groove me your feet to this

Workin' it, exertin' it, you're it now fully immersed in it

Workin' it merchin' it, make sure you get what you're worth from it
Workin' it, exertin' it, you're it now fully immersed in it
Workin' it, merchin' it, make sure you get what you're worth from it

This is how I take it
dish it out then take it
That ain't about no paper
it's about my patience
I don't twiddle my thumbs
I know how to make it
Jump off I don't
promote this tough talk
I do what I do
I win and you lose
Trying to put in your two?
I don't listen to fools
Misconstrue the truth
and all logic
you think you all that but
I think not, and yo
I link farther back
to puff starters
and parkas
and shoe jackets
Niggaz will shoot at ya
I'm a real dude
so I feel you
Show you an ill view
always build new
structures to touch ya
I've pumped substance
always up to something
but no fronting

Workin' it, exertin' it, you're it now fully immersed in it
Workin' it, merchin' it, make sure you get what you're worth from it
Workin' it, exertin' it, you're it now fully immersed in it
Workin' it, merchin' it, make sure you get what you're worth from it
Workin' it, exertin' it, you're it now fully immersed in it
Workin' it, merchin' it, make sure you get what you're worth from it
Workin' it, exertin' it, you're it now fully immersed in it
I said you're fully immersed in it
You're fully immersed in it
