

Del Water Gap, All We Ever Do Is Talk

i know you're my person
and i won't find no one like you
you know i'm your guy
your best friend and your lover too
what did we lose?

all we ever do is talk
man i'm so exhausted
circles till we're nauseous
and what happened?

to meeting you at the hotel, 3 am
pull the belt from your robe, pushing me on the bed
it was good, it was good, didn't know what it meant
but will we ever get that feeling again?

with your back on the wall, pulling off my suit
you could hear us from the hallway, flipping the room
it was good, it was good, didn't want it to end
but will we ever get that feeling again?

coming back to center
after we dissect the roots, yeah
oh fall asleep on my shoulder
breathe out while i hold you
wake up do it over again and again and again
what happened?

to meeting you at the hotel, 3 am
pull the belt from your robe, pushing me on the bed
it was good, it was good, didn't know what it meant
but will we ever get that feeling again?

with your back on the wall, pulling off my suit
you could hear us from the hallway, flipping the room
it was good, it was good, didn't want it to end
but will we ever get that feeling again?

oh it was good, it was good, it was good, it was good, it was good, it was good
oh it was good, it was good, it was good, we were good, it was good, good, good, good, good

all we ever do is talk
man i'm so exhausted
circles till we're nauseous
and what happened?

to meeting you at the hotel, 3 am
pull the belt from your robe, pushing me on the bed
it was good, it was good, didn't know what it meant
but will we ever get that feeling again?

with your back on the wall, pulling off my suit
you could hear us from the hallway, flipping the room
it was good, it was good, didn't want it to end
but will we ever get that feeling again?

oh it was good, it was good, it was good, it was good, it was good, it was good
oh it was good, it was good, it was good, we were good, it was good, good, good, good, good
