

# Delirious?, Break The Silence

Citizens with a secret in our hands  
That could ignite our shadow lands  
Light it up and let it go  
Let it shine with love and grace and a redesign  
A ray of hope for the common man  
Light it up and let it go

Oh, oh, oh,  
We've got to give it away  
And there's a price to pay  
When we give it away

Break the silence, break the silence,  
Cross ever boundary that divides us, divides us  
Break the silence, break the silence,  
Cross ever border that divides us, oh, unite us

We turn the page, to a future just begun  
If heaven is real then let our heaven become  
Peace on earth, let it flow.  
We raise our voice where the colours all but gone  
Paint the world with redemption songs  
Stir it up let it flow
