

# Delirious?, Delirious - See The Star

See the star that's breaking through  
To shine upon this head of mine and the people who  
Are running for the goal ahead  
And we won't stop 'til we reach the end  
This day it's time to fix our eyes  
I'm living for the greatest prize

So we run  
Never stop  
Keep my feet on the road  
So we run  
Never stop  
Set my feet on the road

We live the life and dream the dream  
But what you gonna do when the walls come down and fall on you

Pick up your head and feel the sun  
'Cause we won't stop till the race is won  
Today I'm walkin in the light  
We'll keep this flame that's burning bright

So we run  
Never stop  
Keep my feet on the road  
So we run  
Never stop  
Set our feet on the road  
So we run  
Never stop  
Keep our feet on the road  
So we run  
Never stop  
I'm feeling sweet upon the rock
