

# Delta Goodrem, Back To Your Heart

There's days I feel so small  
Feel like I've lost control  
These lonely days never end  
Try to turn down the noise  
It's hard to hear my voice  
When it's all in my head

When you're feeling down and out  
Life is for the here and now

So get out of your head  
And into your heart  
The road is never too far  
Love's what it takes  
It's who we are  
So keep running back  
Running back to your heart

When people say you can't  
When they say that you won't  
Prove to them who is right  
They say that there's no chance  
I'm gonna take my stand  
I'm always up for the fight

When you're feeling down and out  
Life is for the here and now

So get out of your head  
And into your heart  
The road is never too far  
Love's what it takes  
It's who we are  
So keep running back  
Running back to your heart

I don't want what you have (no, no)  
Yeah I know what I need  
To take all this love inside and set it free

So get out of your head  
And into your heart  
The road is never too far  
Love's what it takes  
It's who we are  
So keep running back  
Running back to your heart
