

# Delta Goodrem, Breathe In, Breathe Out

Do you ever wanna run away?  
Feel like every day is not your day  
Do you ever find yourself out in the cold no were to go  
If the world has ever cut you deep  
If the scars never seem to heal  
If the emptiness is way to much for you all you can do

Just breathe in breathe out that's a moment in your life  
Breathe in breathe out its a wonderful night

Oos Aahs

No matter where the seasons fall  
No matter how the dice will roll

In the end the here and now is all we have dont look back

Just breathe in breathe out that's a moment in your life  
Breathe in breathe out its a wonderful night

Oos Aahs

A hundred million times [x2]

Oos Aahs

Just breathe in breathe out that's a moment in your life  
Breathe in breathe out its a wonderful night [x2]
