then you but i know i love you too  
there's no way out no way out of here  
of this bad bad dream

but i was schaired that something would  
happen tot you

you were here for when i was sad  
when i needed you the most i knew you  
were there for me now and if you need  
ME i'll be there

SECOND VIRSE:

now every thing's different every one looks  
at me that way now i can't help it to feel a bit special  
but i'd hope you'd understand

but i was schaired that something would  
happen tot you

CHORUS:

you were here for when i was sad  
when i needed you the most i knew you  
were there for me now and if you need  
ME i'll be there
