

Delta Goodrem, Silence Be Heard

Let my silence be heard
Is this what I got?
Oh Oh, oh, ooh, ooh, yeah

It was late October
And the stars were up at night
I looked around but couldn't see the truth in you but I
Kept my dignity for me
But I felt that suddenly
I was all but deep inside
And couldn't hide anymore

Is this what I get for being a good person to you?
And all of the things I find out now, how could you do?
But I will not change
I will just grow from now on I know
Let the silence be heard
Let the silence be heard

Is this what I get for being a good person to you?
And all of the things I find out now, how could you do?
But I will not change, I will just grow
From now on I know
Let the silence be heard
Silence be heard

Tell me do you remember
How you'd always hold me close
But I'm glad I didn't give you the best of me don't you see that
The candles burned out long ago
Now I'm as cold as ice, I know
I tried to be a friend but you just threw it all away

Is this what I get for being a good person to you?
And all of the things I'm finding out now, how could you do?
But I will not change, I will just grow
From now on I know
Let the silence be heard
Let the silence be heard

Is this what I get for being a good person to you?
And all of the things I found out now, how could you do?
But I will not change, I will just grow
From now on I know
Let the silence be heard
Let the silence be heard

Oh, oh, oh
Let the silence be heard
For being a good person to you
For being a good person to you
Is this what I get?
Oh, ooh

Is this what I get for being a good person to you?
And all of the things I found out now, how could you do?
But I will not change, I will just grow
From now on I know
Let the silence be heard
Let the silence be heard
