

Demi Lovato, CITY OF ANGELS

Been here for fifteen years
I'm bored to tears
There's nothing left to do
This town is heaven sent
But better when
I'm face down under you

Before they go and write my eulogy
Come make this place new to me by

Christening the city of angels
Show it to me from every angle
I wanna see Beverly on my knees
I want you to make me scream at the Roxy
Christening the city of angels
City of angels
The city of angels

Splash Mountain from your hands
At Disneyland
You know I skip the lines
I'm going down on you
At the Viper room
At Saddle Ranch I'll ride

You call me they
But I'm still daddy's girl
Come make my day
And rock my world by

Christening the city of angels
Show it to me from every angle
I wanna see Beverly on my knees
I want you to make me scream at the Roxy
Christening the city of angels
City of angels
The city of angels

Got me screaming ayo on Rodeo
Got me screaming ayo on Rodeo

Christening the city of angels
Show it to me from every angle
I wanna see Beverly on my knees
I want you to make me scream at the Roxy
Christening the city of angels
City of angels
The city of angels
City of angels
