

# Demi Lovato, DEAD FRIENDS

I'm breathing in and out  
They don't  
They don't  
I watch the sun go down  
They won't  
They won't  
I'm waking up right now  
And they never will  
Again  
I still can't understand

I danced with the devil  
I made it through hell  
And I don't know why  
How am I different?  
I did and they didn't  
And it doesn't feel right

I miss the hell we can't raise  
I miss the time we can't waste  
I miss the texts they can't send  
I miss my dead friends  
We had the rest of our lives  
Didn't get to say goodbye  
God only knows where they went  
I miss my dead friends

I spot the satellites  
Like we used to do  
Blow smoke rings to the sky  
Like they'll fly to you  
Sometimes I wish that I  
Could jump right into  
The blue  
For a moment with you

I danced with the devil  
I made it through hell  
And I don't know why  
How am I different?  
I did and they didn't  
And it doesn't feel right

I miss the hell we can't raise  
I miss the time we can't waste  
I miss the texts they can't send  
I miss my dead friends  
We had the rest of our lives  
Didn't get to say goodbye  
God only knows where they went  
I miss my dead friends

I miss my dead friends  
I miss my dead friends  
I'll see them again  
I miss my dead friends

I miss the hell we can't raise  
I miss the time we can't waste  
I miss the texts they can't send  
I miss my dead friends  
We had the rest of our lives  
Didn't get to say goodbye  
God only knows where they went

I miss my dead friends

I miss my dead friends  
I miss my dead friends  
I'll see them again  
I miss my dead friends

I miss my dead friends  
I miss my dead friends  
I'll see them again  
I miss my dead friends
