

Demi Lovato, HELP ME (ft. DEAD SARA)

Nothing hanging over
Not biting the bait
What you think matters
Isn't up for debate

Stroking on your ego oh oh
Stroking on your ego oh oh

You say suck it up
There's nothing I can do but throw the two birdies up
There's nothing I can do when I'm really feeling depressed and you know when you're this low ther

Won't plead for you to hear me out
Help me you wanna help me HUH?!
I must be feeling better now
Help me, you think you're helping, HUH?!

Hey thank you for
Your useless information
Hey never satisfied
With my explanation
Hey what's with your desperate fascination
Hey thank you for
Your useless information

I'm gonna take your opinions
Shove em back in your face
Always some kind of expert
On how to behave

Stroking on your ego oh oh
Stroking on your ego oh oh

You say suck it up
There's nothing I can do but throw the two birdies up
There's nothing I can do when I'm really feeling depressed and you know when you're this low ther

Won't plead for you to hear me out
Help me you wanna help me HUH?!
I must be feeling better now
Help me, you think you're helping, HUH?!

Hey thank you for
Your useless information
Hey never satisfied
With my explanation
Hey what's with your desperate fascination
Hey thank you for
Your useless information
