Demi Lovato, HELP ME (ft. DEAD SARA)

There's nothing I can do when I'm really feeling depressed and you know when you're this low ther

There's nothing I can do when I'm really feeling depressed and you know when you're this low ther

Nothing hanging over Not biting the bait What you think matters Isn't up for debate

Stroking on your ego oh oh Stroking on your ego oh oh

Stroking on your ego of c You say suck it up

Won't plead for you to hear me out Help me you wanna help me HUH?! I must be feeling better now

There's nothing I can do but throw the two birdies up

Help me, you think you're helping, HUH?!

Hey thank you for Your useless information Hey never satisfied With my explanation Hey what's with your desperate fascination Hey thank you for Your useless information

I'm gonna take your opinions Shove em back in your face Always some kind of expert On how to behave

Stroking on your ego oh oh Stroking on your ego oh oh

Stroking on your ego oh oh
You say suck it up

Won't plead for you to hear me out Help me you wanna help me HUH?!

I must be feeling better now Help me, you think you're helping, HUH?!

There's nothing I can do but throw the two birdies up

Hey thank you for Your useless information Hey never satisfied With my explanation Hey what's with your desperate fascination Hey thank you for Your useless information
