

# Demis Roussos, I Need You

Day break  
It's just another day  
I miss you  
More than I can say

And I'm finding out the hard way  
Can't lean on someone else  
I know it's my life  
Gotta live it for myself

And still I'm needing  
And needing can't be right  
I reach out  
Call you every night

I know it's out of fashion  
To fall apart this way  
But I'm needing  
And I'm not ashamed to say it

That I need you  
Like a desert needs the rain  
To pour your love inside of me  
Calling me to bloom again

I need you  
More with everyday  
Most of all I need  
To need me like I need you

Sunset  
Walking in the sand  
I reach out  
Take you by the hand

It's heavens just to touch you  
To hold you one more time  
But I'm dreaming  
It's only in my mind

And I need you  
Deep within the night  
Need you here beside me  
To warm me with your fire light

I need you  
Like a stranger needs a friend  
To take the lonely world away  
To come and make me smile again

Oh God I need you  
Like a flower needs the sun  
To warm me with your love and light  
And hold me when the day is done

I need you  
Every breath I take  
Need you like the sunshine  
Every night, every day
