

# Demis Roussos, Lament

I've long awaited for the day  
That comes to set me free  
And all I ask  
As I'm a fool  
Is love for you and me  
For now and each and every day  
The moon, it changes us all  
All the misery lies  
Set to blind your eyes  
All in all  
From seeing you

All I need is a simple truth  
Cause I believe in you  
A story telling silent order make believe us true  
Cause I will know  
A time to climb above my lonely soul  
I reach out with my heart  
To the moment divine  
And feel my love grow

Freedom divine  
Freedom divine  
Freedom divine  
Freedom divine  
Freedom divine  
All I need is a simple truth  
Cause I believe in you  
A story telling silent order make believe us true  
Cause I will know  
A time to climb above my lonely soul  
I reach out with my heart (Freedom divine)  
To the moment divine (Freedom divine)  
And feel my love grow  
Freedom divine  
Freedom divine  
Freedom divine
