

Demis Roussos, Let It Happen

Let it happen
Honey don't you live on the edge of your life
Let it happen
Honey don't you live on the edge of a sigh
Let it happen
Honey don't you live on the edge of a smile
Let it happen
Honey don't you live on the edge of your time
Baby all you got to do
Is let the rythm get to you

Baby all you got to do
Is let the rythm get to you

Let it happen
Honey take a ride on the wheel of life
Let it happen
Open up your heart to the wheel of life
Let it happen
You can put your trust to the wheel of life
Let it happen
Throw away your fear on the wheel of life
Baby all you got to do
Is let the rythm get to you
Baby all you got to do
Is let the rythm get to you
(interlude)

All you need is love on the wheel of life

Honey don't you live on the edge of a sigh
Let it happen
All you need is love on the wheel of life

Let it happen
Honey don't you live on the edge of a sigh

Baby all you got to do
Is let the rythm get to you

Baby all you got to do
Is let the rythm get to you

Let it happen
All you need is love on the wheel of life

Let it happen
All you need is love on the wheel of life

Let it happen
All you need is love on the wheel of life

Let it happen
All you need is love on the wheel of life

All you need is love on the wheel of life
All you need is love on the wheel of life

All you need is love on the wheel of life

All you need is love on the wheel of life
