

Demis Roussos, Song For You

In me a silence as in your words
Glide like some crazy fall of nightbirds
I'm full of sky and music too

Wanna make a song for you
I wanna make a song for you
I wanna make a song for you

Just can believe [a touch is so light]
Laughing like in a circus all the time
Like [their go gesture] born anew

Wanna make a song for you
I wanna make a song for you

[interlude] Drunk on the passing by of each day
Wanting to sing your fragrance, your grace
There's really good music floating on my song
I wanna make a song for you
I wanna make a song for you
I just wanna make a song for you

In me a silence as in your words
Glide like some crazy fall of nightbirds
I'm full of sky and music too
I wanna make a song for you
I just wanna make a song for you
